**Welcome to the National Fire Incident Reporting System (NFIRS)** Web site. This Web site provides system resources and an overview of the standard national reporting system used by U.S. fire departments to report fires and other incidents to which they respond and to maintain records of these incidents in a uniform manner. The site also includes information on training, technical support, and information for vendors who develop NFIRS-compatible software programs. Visitors to this site may also download coding handbooks, sample forms, and a system documentation manual. [Learn More About NFIRS](#) »

- On the next page select “Report Incidents (DEBI)”

### NFIRS 5.0 Web-based Tools

Welcome to the USFA NFIRS 5.0 Web-based Tools section. General Information about the new web-based tools is provided below.

#### NFIRS 5.0 Web-based Tools

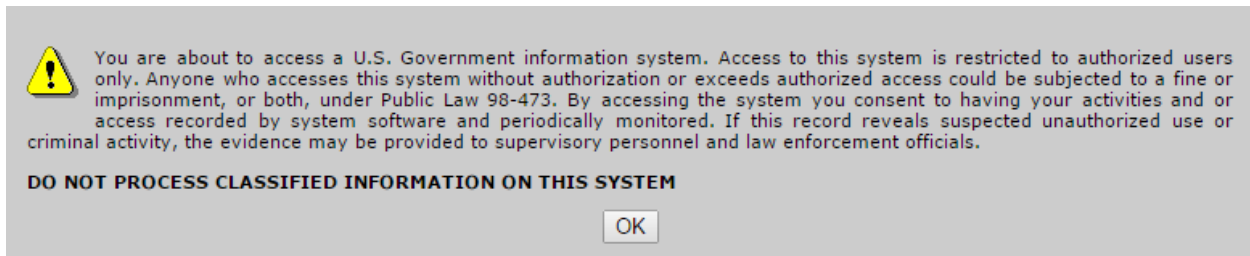

Web-based tools which provide reporting and data transmission capabilities through the use of standard Internet technology are now being offered to State Program Managers participating in the USFA NFIRS 5.0. Following the test period of each tool, a phased approach for its release and implementation allows State Program Managers to review system requirements and plan their state's user participation. If State Program Managers choose to do so, they may assign to selected users in their state the necessary permission for one or more of the new web-based tools. The user must have an activated NFIRS 5.0 User account with necessary permissions assigned for the tool use or action. Using the web-based NFIRS 5.0 Tools requires Internet connectivity, a browser version and PC that meets necessary system requirements as outlined for each tool on its information page.

- You will be redirected and prompted for your login information.

The image shows the login page for the National Fire Incident Reporting System (NFIRS). On the left, there is a circular logo for the U.S. Department of Homeland Security. The main heading is "National Fire Incident Reporting System". Below this, there are two login options. The first is "NFIRS State and Local Users Login", which includes fields for "User State:" (containing "SC"), "Username:" (containing "edmistona"), and "Password:" (containing "\*\*\*\*\*"), with a "Submit" button. The second option is "FEMA PIV Card Single Sign-on", which includes a text box explaining that FEMA PIV Card holders must use single sign-on and a "Sign On Using FEMA PIV Card" button. To the right of this text is an image of a FEMA PIV Card. At the bottom, there are links for "Privacy/Important Notices", "USFA", and "Contact Us", along with contact information for the U.S. Fire Administration and NFIRS Support Center, and a "Built on" timestamp of 01/17/2017 10:39 AM.

- Once logged in you will be prompted by the following warning. You must accept to proceed.

The image shows a warning message with a yellow triangle icon containing an exclamation mark. The text reads: "You are about to access a U.S. Government information system. Access to this system is restricted to authorized users only. Anyone who accesses this system without authorization or exceeds authorized access could be subjected to a fine or imprisonment, or both, under Public Law 98-473. By accessing the system you consent to having your activities and or access recorded by system software and periodically monitored. If this record reveals suspected unauthorized use or criminal activity, the evidence may be provided to supervisory personnel and law enforcement officials." Below the text is the instruction "DO NOT PROCESS CLASSIFIED INFORMATION ON THIS SYSTEM" and an "OK" button.

- On every page you will have access to a top navigation menu you will have four options and a link back to the home page.

[Home](#) [Incident Search](#) [New Incident](#) [Open Fire Department](#) [Change Password](#)

- The incident search tool is used to find incidents that have already been reported. Enter the FDID and at least one other box and select "Search". \*Date must be mm/dd/yyyy\*
  - ❖ If you leave the "Incident To Date" blank it will return the first 500 incidents since the "Incident From Date."

- ❖ You can then sort each column by clicking its heading.

Reminder: Your session lasts for thirty (30) minutes unattended. Save your incident to reset this timer.  
**Incident Search**

Search Results: 38 incidents found. [Modify search criteria](#)
