

South Carolina State Fire
presents

NFIRS Training

Take classes
on your time,
in your fire
department.

Improve your
reporting rates, data
quality, and
information sharing.

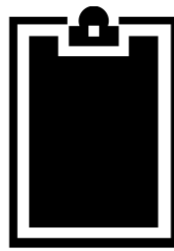

Classes are free,
open to all skill
levels, and anything
but boring!

End User Training

3 hours

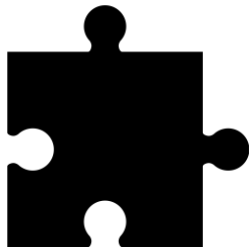

Learn the ins and outs of NFIRS, how to fill out 95% of incident reports, and tips on writing a great narrative.

Administrator Training

4 hours

Learn about quality control, communication issues between the field and reporting, and ways to go from "bad data" to "good data."

Codes & Logic Workshop

6 hours

Experience an "End User Training" PLUS learn about coding fires, understanding and fixing invalid reports, and fitting everything in the incident report together.

Workshop of your choice

Minimum 2 hours

Don't see a training you want? Contact us to plan a workshop that covers the topics you'd like us to deliver.

**Schedule
your
training
